### Again in 2010:

The Scholastic Sprints participants will support the work of A Glimmer of Hope, a Pennsylvania non-profit organization that funds the only under-forty breast cancer study in the country and is dedicated to finding a cure for this devastating disease. This study is being conducted at Magee-Womens Research Institute (MWRI) in Pittsburgh, PA. For more information, please visit [www.symbolofthecure.com](http://www.symbolofthecure.com).

Each rower will support the research work with an entry contribution of \$5, assessed along with the boat entry fees on RegattaCentral.com. A portion of the event proceeds will also be donated to A Glimmer of Hope. A special section of the program has been designated for notices “In honor” or “In memory” of loved ones affected by breast cancer. For more information, please contact Cathy Hilton, [cathyarose@gmail.com](mailto:cathyarose@gmail.com).

Three Rivers Rowing Waivers are required for ALL participants

## RACE DAY PROCEDURES

### *Coaches and Coxswains Meeting*

- ◆ A mandatory pre-race meeting will be held one hour prior to the first race of the day in front of the timing tent near the finish line. All scullers, coaches and coxswains must be present.

### *Course Safety*

- ◆ All boats must have quick-release footgear with maximum 3" heel tie-down
- ◆ All teams must supply their own bow numbers.

- ◆ All racing shells must have a bow ball.
- ◆ All persons in the boat, or their legal guardians, must sign and turned in their TRRA waivers and paid the appropriate fee.
- ◆ US Coast Guard Auxiliary will be on hand to assist with safety in addition to the officials and marshals.
- ◆ Paramedic will be set up to deal with on-site emergencies. They will be located near the launch site.

### ***Schedule***

The posted schedule will be adjusted after registration deadline based on actual entries that are received. The order of events will remain the same, but expect the times to be adjusted. Watch the website for schedule updates. The first race on Sunday is scheduled for 8:00 am. The local organizing committee (LOC) reserves the right to:

- ◆ Change the tentative schedule of events, including changing the order of events on race day.
- ◆ Scratch any events with fewer than 3 entries.
- ◆ Limit the number of events or flights in order to ensure races are completed before darkness and within park rules and regulations.

### ***Warm-up***

Warm-ups will take place from the launch site near to the starting line. A small cove off the side of the starting line may also be used for warm-ups.

### ***At the launch site***

Competitors will be given three calls from the launch site and are asked NOT to come to the launch site before being called.

- ◆ 1st call - 35 minutes prior to start time
- ◆ 2nd call - 30 minutes prior
- ◆ Final call - 25 minutes prior

Please refer to the map of the launch site. All shells will be funneled through the yellow tape to the dockmaster's tent where the shell will be inspected for safety equipment. To make this process go smoothly, upon arriving at the dockmaster's tent the coxswain should announce the name of the crew and the scheduled lane. Please bring your own bow number. They will NOT be provided. Be sure to have enough lane numbers from 1 to 7.

Lake Arthur has NO docks. The launch site consists of about 100 yards of grass bordered by a small cement curb and apron highly suitable for "walking in" the shells. Since the apron is concrete, rowers should walk into the water to about knee height before entering the shell this should prevent the shell's fin from hitting the concrete apron. Each crew must be prepared to shove off within 2 minutes. Ample space is available for placing oars close by, prior to carrying the shell to the launch area.

Generally, the following pattern will be followed for the launching and retrieving shells:

- ◆ Launching: towards the right when looking at the water from the land. Launching shells must row out to and around the buoy located off to the port side of the boat and then proceed out to the course.
- ◆ Return: towards the LEFT when looking at the water. Closer to the finish line.

### ***Hot Seating***

Multiple use of equipment, rowers and/or coxswains, while not recommended, will be attempted to be accommodated under the following conditions only:

- ◆ Notify the dockmaster before launching of the need to hot seat that shell and provide the following information, which the dockmaster will note: bow number, event number, what is being hot seated (i.e., the boat, rowers, or coxswain), and the time and event # of the next event for which hot seating is required.
- ◆ After crossing the finish line and returning to the launch site, the dockmaster will attempt to call the hot seating shell to the launch site at the earliest time that the dockmaster can safely do so.

**NOTE: *Permission to hot seat does not exempt a shell from arriving at the start on time. Please understand that hot seating is being facilitated as a courtesy, but for the good of all other competitors, the schedule of the day's events will not be delayed to accommodate hot seating.***

### ***The Course***

All competitors will race 1500 meters with a floating start. Two large (48") buoys on either side of the course will mark the start and finish lines. A map will be provided on race day illustrating the course and the patterns to be followed for rowing to the start, the race course, and rowing to the launch area. Coxswains must obey the commands of the starting officials. Broken equipment will be recognized within the first 20 seconds.

The course is partially marked with lane buoys. Competitors are responsible for maintaining their lanes. Buoys mark the 250m, 500-m, 750m, 1000m and 1250m points. Lane 1 is located closest to the finish line side.

### ***Protests***

Protests involving the conduct of a race must be lodged by the crew at the finish line while still on the water and before the referee declares the race to be official. A coach or other team member may not lodge a protest on behalf of a crew. A crew wishing to lodge a protest must signal to a referee immediately after finishing the race by having a member of the crew raise a hand until the attention of the referee has been gained and acknowledged.

### ***Classifications***

All classifications are per our governing body, the Midwest Scholastic Rowing Association:

Note: individual maximum, no average for all classes

### ***Scoring***

Medals will be awarded to the top three boats in each final event. All boats are eligible for medals. In any event only one boat per school is eligible for points. More than one school must be racing in an event for points to be awarded.

<b><u>Number of Boats</u></b>	<b><u>1st</u></b>	<b><u>2nd</u></b>	<b><u>3rd</u></b>	<b><u>4th</u></b>	<b><u>5th</u></b>	<b><u>6th</u></b>
3	20	8	1			
4	20	12	6	1		
5	20	16	8	2	1	
6 or 7	20	16	8	4	2	1

The number of boats refers to the number starting a race rather than the number formally entered in a race. No points will be awarded to boats starting a race but not finishing or to boats disqualified.

### ***Awards***

Awards for final events will be given immediately after each race provided there is not a protest or a scoring complication. Medals will be handed to the bow person or coxswain for distribution. Medals are awarded for the first, second, and third place of the finals following US Rowing guidelines for the number of entries per final. Please join us at the end of the race on Sunday for our official Scholastic Sprints awards photo ceremony.
